September 25, 1996

TO: Minerals File

FROM: Lynn Kunzler, Reclamation Specialist 

RE: Site Inspection, Ecology Mining/Salt Lake Environmental, Deer Trail Mine, S/031/003, S/031/005, Piute County, Utah

Date of Inspection: September 11, 1996
Time of Inspection: 10:00 a.m.
Conditions: Drizzling rain
Participants: Lynn Kunzler, DOGM

Purpose of Inspection: To document current site conditions

There apparently has not been any activity visible on the surface since my last inspection of these sites. There is power to the substation (you can hear the transformers humming). The reclamation work at the upper end of the Deer Trail mine was seeded last year. The vegetation is coming in satisfactorily.
